

LEMON VODKA

INGREDIENTS

Bottle of plain vodka

1 lemon

Needle and thread

METHOD

Wash and dry the lemon

Using a potato peeler pare off half a dozen strips of lemon zest

Thread the zest and lower it into the vodka, keeping the ends of the thread above the bottle neck

Secure the thread with the bottle top

Leave at room temperature for 3-4 days

Remove peel and put bottle in freezer until needed

Serve shots straight from the freezer with herring or “Cold feet”
